LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Silver Valley Unified School District
CDS Code: 36738900000000
School Year: 2023-24
LEA contact information:
Jesse M Najera
Superintendent
jnajera@svusdk12.net
7602542916

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year

Projected Revenue by Fund Source

All federal funds, $12,747,043 , 30%

Total LCFF funds $24,869,829 58 %

All Other LCFF funds, $21,761,945 , 51%

All local funds, $1,650,056 , 4%

All other state funds, $3,484,925 , 8%

LCFF supplemental & concentration grants, $3,107,884 , 7%

This chart shows the total general purpose revenue Silver Valley Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Silver Valley Unified School District is $42,751,853, of which $24,869,829 is Local Control Funding Formula (LCFF), $3,484,925 is other state funds, $1,650,056 is local funds, and $12,747,043 is federal funds. Of the $24,869,829 in LCFF Funds, $3,107,884 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP

Total Budgeted General Fund Expenditures, $43,798,129

Total Budgeted Expenditures in the LCAP $5,081,701

This chart provides a quick summary of how much Silver Valley Unified School District plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Silver Valley Unified School District plans to spend $43,798,129 for the 2023-24 school year. Of that amount, $5,081,701 is tied to actions/services in the LCAP and $38,716,428 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

The budgeted expenditures that are not included in the LCAP ($38,616,428) will be used for the following: A combination of salaries, benefits, Special Education, Title I, II and IV, a contribution to Central Kitchen, utilities, transportation, maintenance/operations, instructional supplies, preschool support and department budgets.

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Silver Valley Unified School District is projecting it will receive $3,107,884 based on the enrollment of foster youth, English learner, and low-income students. Silver Valley Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Silver Valley Unified School District plans to spend $3,350,641 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022-23

Prior Year Expenditures: Increased or Improved Services for High Needs Students

- Total Budgeted Expenditures for High Needs Students in the LCAP: $2,757,471
- Actual Expenditures for High Needs Students in LCAP: $3,348,001
This chart compares what Silver Valley Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Silver Valley Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Silver Valley Unified School District's LCAP budgeted $2,757,471 for planned actions to increase or improve services for high needs students. Silver Valley Unified School District actually spent $3,348,001. for actions to increase or improve services for high needs students in 2022-23.

The difference between the budgeted and actual expenditures of $590,530 had the following impact on Silver Valley Unified School District's ability to increase or improve services for high needs students:

SVUSD spent additional funding on providing additional intervention (RtI) services. SVUSD recognized that its students are still working to recoup the learning loss due to the COVID-19 pandemic. SVUSD was able to provide additional RtI services to its highest needs students in ELA and Mathematics. The additional dollars also help cover the cost of additional TK/K instructional minutes due to salary increases for the teachers in those grade levels. Finally, the additional funding was used to provide increased counseling services to our highest needs students. SVUSD recognized that there was an increased need to support its students' social, emotional, and behavioral well being. The increase in counseling services allowed the district to address those needs by helping students learn how to better manage (self-regulate) their emotions.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The Silver Valley Unified School District serves a diverse group of students with the goal of "To prepare students to be confident, collaborative and creative learners for success in a rapidly changing society." Our student population consists of approximately 35% White students, 40% Hispanic students, and 10% African-American students. Silver Valley USD serves students from Ft. Irwin National Training Center and the Marine Corps Logistics Base in Barstow, California, as well as students from Yermo, Daggett, Newberry Springs and Ludlow. Our LCFF unduplicated count is approximately 61%, which consists of about 4% English Learners, 59.79% Low Income and about 1% Foster Youth.

Silver Valley Unified School District (District) currently operates one (1) kindergarten through fifth grade elementary school, one (1) Transitional kindergarten through 8th grade School, one (1) Transitional kindergarten through 2nd grade elementary school, one (1) 3rd through 5th grade intermediate school, one (1) 6th through 8th grade middle school, one (1) comprehensive high school, one (1) alternative education school, which houses a continuation high school, opportunity program, success program, adult education program and a long term independent study program. Total enrollment for the 2022-23 school year varied from day-to-day, but was approximately 1,940 students.

The 2022-23 school year continued to present challenges to the Silver Valley USD community. SVUSD staff is still seeing the effects of the COVID pandemic on our students in their achievement, social emotional wellbeing, attendance rate and behavior. We saw an increased amount of students who qualified for site-level interventions for academics and social emotional wellbeing. As a small district, we were able to quickly act and put supports in place for our students. We were able to provide additional teachers and counselor services at our highest need schools. School sites worked diligently to keep kids in school in an effort to reduce absenteeism rates.

Reflections: Successes

During the past year SVUSD was able to provide all students with additional counseling services across the District. The addition of the Director of Student Health and Wellness provided the district with the opportunity to better coordinate our counseling services. This also allowed for additional small group sessions at our most neediest schools for our highest at-promise students (Goal 3, Action 3). Additional Response to Intervention (RtI) teachers (Goal 1, Action 3) at the school sites have already shown success in math. In 21-22, the district experienced a 7% increase in its Math CAASPP proficiency rate (from 23% up to 30%). This past year SVUSD also began to invite the classified instructional aides working in our classrooms with students to Math and ELA training sessions. These opportunities for staff development allowed our aides to better understand and support not only the students, but the teachers as well (Goal 1, Action 1).

This past year, SVUSD was able to add the second course to our Med Core class at Silver Valley HS. The addition of this class completes our Med Core pathway, giving our students a second CTE pathway. In addition, the Alternative Education Center was able to begin a Graphic Arts CTE program for its students. The class teaches students the many aspects of graphic design, printing and creating a digital portfolio of their design work (Goal 1, Action 5).

In an effort to support the social emotional needs of, not only, our military students, but all students who enter or leave our schools, each school site has an "Anchored4Life" team. This is a peer-to-peer youth club that provides opportunities for peers to enhance social skills, learn leadership skills, build character, improve self-esteem and integrate into their community. Students will learn change and resiliency skills to improve themselves and provide support for others (Goal 3, Action 3).

SVUSD began training teachers in Structured Literacy this past year to support the needs of our most at-promise students (Goal 1, Action 1, 2 & 10). SVUSD provided this training to its special education teachers in an effort to start with those students who need the most support. This training will continue into the 23-24 school year with all teachers in grades TK-3 being trained in using those strategies for not only our Low Income, Foster Youth and English Learners, but all students.

Reflections: Identified Need

The California School Dashboard only reported on "Status" for 2022. Silver Valley USD's areas of identified need are as follows:

Chronic Absenteeism: Very High, 21.1%
Suspension Rate: Medium, 2.9%
There is a need to decrease the chronic absenteeism rate and suspension rates. Several strategies were implemented to address this. The strategies include professional development in social-emotional learning (Goal 3, Action 1 & 5), response to intervention at each site (Goal 1,

Action 3), PBIS implementation (Goal 3, Action 1) and improved communication with the community. These strategies will continue in the 2023-24 LCAP.

ELA CAASPP Scores: Low Math CAASPP Scores: Low
Silver Valley Unified scored 25.5 points below standard in ELA and 51.1 points below standard in Math on the 2021-22 California Assessment of Student Performance and Progress. Data showed that our students scored 40% Met or Exceeded Standards in ELA and 30% Met or Exceeded Standards in Math. There is a need to increase student achievement in the area of Math and ELA at all grade levels. Several strategies that were implemented to address this deficit include: Goal 1 Actions 1, 3, 6, 7, & 8; Goal 2 Action 2; Goal 3 Action 1 and Goal 4 Actions 1, 4 & 5. These strategies will continue in our 2023-24 LCAP. SVUSD will add an additional action to Goal 4, Action 5: Teacher Longevity Stipend: SVUSD will increase its teacher longevity stipend to promote district stability and to retain fully credential teachers in the district to support our students. These strategies will continue in the 2023-24 LCAP.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The four goals of the Silver Valley Unified School District Strategic Plan and LCAP are Student Achievement, Technology, Student/Parent Support and District Stability.

* Student Achievement: Action steps for Student Achievement, Response to Intervention, Career Technical Education, Common Core Implementation, AVID, and Professional Development.

* Technology: Action steps that address software, hardware, and infrastructure that supports 21st Century teaching and learning in our classrooms.

* Student/Parent Support: Action steps that address Positive Behavior Interventions and Supports (PBIS), Parent class: Preparing Your Student for Success, Small Group Social Skills at all sites, and Counseling Services.

* District Stability: Action steps that address leadership development, Basic Services, Recognizing Excellence, retention and recruitment of highly qualified teachers.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Silver Valley Academy has been identified for Comprehensive Support and Improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Silver Valley Academy (SVA) teachers and staff will conduct a needs assessment to identify areas of needed improvement. The Assistant Superintendent of Educational Services and representatives from our local SELPA will be invited to this meeting to review and discuss important data to narrow the school focus for their CSI Plan.

SVUSD will collaborate with SVA in the further development and refinement of their SPSA and CSI plan to focus on the following state indicators: Chronic absenteeism and the Academic Indicator. A needs assessment will be conducted using the most recent data for chronic absenteeism and student achievement and shared with parents and staff during School Site Councils, staff meetings and site strategic planning meetings. SVA's School Site Council meets on a regular basis and is made up of teachers, parents of EL, Hispanic, and LI subgroups. Additional information will be gathered from annual surveys from parents, students and staff. For over the past decade, SVUSD has engaged in Strategic Planning with its educational partners. This strategic planning group, made up of parents, students, teachers, classified staff, site and district administrators meets two times a year to review the most recent district data on the State indicators and give input to the next steps the district should take to improve those indicators. This process has been pushed down to the site level. Every year, the school sites bring together parents, students, teachers and classified staff to review different focus areas for improvement. The educational partner groups ask questions and give recommendations to the site staff for the next steps that should be taken to improve student attendance and suspension rates and student academic scores. During this time the site staff shares data from the previous year's plan and the progress they have made towards meeting its goals. This meeting will serve as another means to share information and gather input from students, parents and staff to inform the CSI plan. Once SVA's educational partners have reviewed the plan and made their recommendations, the principal will meet with the SVUSD Cabinet to review the plan on a regular basis.

SVA will address chronic absenteeism through a comprehensive approach that involves identifying and addressing underlying causes, implementing targeted interventions, and collaborating with students, parents, and educational partners. SVA utilizes data-driven systems to monitor attendance, identify students with chronic absenteeism, and intervene early to provide support. Interventions include personalized outreach, counseling, academic support, and engagement programs to address issues such as health concerns, transportation barriers, or social and emotional challenges. SVA will also collaborate with external agencies or organizations to provide additional resources and support. Additionally, SVA will implement policies and procedures to promote a positive attendance culture, including rewards and incentives, and engage in ongoing communication with families to encourage regular attendance and address any barriers. Overall, SVA will implement a proactive, holistic approach to address chronic absenteeism and support students in achieving academic success.

A key approach to addressing chronic absenteeism for SVA will be to track attendance data closely and identify students who are frequently absent or at risk of becoming chronically absent. Once identified, students and families will be offered additional support to help prevent and mitigate the frequency of absences. SVA has developed an approach based upon six specific strategies outlined below.

Strategies that will be used to address chronic absenteeism include, but are not limited to:
Developing school-wide attendance policies and procedures that are clear and consistent, and that emphasize the importance of regular attendance.
Providing incentives to students who maintain good attendance, such as recognition, awards, or other incentives.
Encouraging parental involvement and communication around attendance issues, and providing resources and support to help students and families address barriers to regular attendance.
Offering alternative programs and support services that can accommodate the needs of students who may struggle with traditional schedules or attendance requirements.
Partnering with community organizations and other educational partners to develop comprehensive, coordinated strategies that address the underlying causes of chronic absenteeism, such as health issues, transportation barriers, or social economic challenges.
Providing community resources to address underlying issues that cause chronic absenteeism.

SVA affirms that increasing student achievement in ELA and Mathematics as measured by the California Assessment of Student Performance and Progress (CAASPP) requires a multifaceted approach that addresses various aspects of the school educational plan. One key strategy is to implement effective instructional practices that align with the CAASPP content and test format. SVA will rigorously review and implement curriculum via Edmentum Courseware that is aligned with state standards, provides ample opportunities for practice and review, and incorporates formative assessments to monitor student progress. Teachers will use data-driven instruction to identify areas of growth and provide targeted interventions to help students improve their academic performance in all areas. Additionally, SVA will offer a test-preparation plan that includes tutoring outside of regular school hours and test-preparation workshops to help students develop test-taking strategies, build confidence, and familiarize themselves with the format of the CAASPP.

Additionally, an important factor for SVA in increasing student CAASPP scores is creating a positive and supportive school culture that promotes academic achievement. SVA will continue to foster and maintain a culture of high expectations for all students, where academic success is valued and celebrated. This will be achieved through recognition programs, school activities, and incentives that acknowledge students' academic achievements. SVA will create and maintain a supportive environment by providing wide-ranging resources to support students' social emotional needs as well. Collaboration between teachers, students, parents, and all educational partners is imperative; consequently, SVA will establish regular communication channels, such as parent-teacher conferences and progress reports, to keep parents informed and engaged in students' academic progress. Moreover, providing professional development opportunities for teachers to enhance their instructional strategies and staying up-to-date with the latest research on best practices will also contribute to increased student achievement.

For the 2023-2024 school year, specific steps include the purchasing of ParentSquare as a way to improve the monitoring of student attendance and academic performance. This will also allow for increased communication between SVA staff, students and parents. SVA will also use ExactPath for each student to identify areas of growth and guide targeted intervention. ExactPath is an evidence-based intervention program for ELA, Reading, and Mathematics for students that assesses their current level of achievement and creates a "learning path" that will meet their individual needs and help close gaps in their learning.

To address any resource inequities, district and site administration will assess the school's needs for: ensuring equal access to student interventions and supports, personnel assignments to pair most at-promise students with more experienced and effective teachers, ensure all students have access to technology and instructional materials at school and home. Once these needs have been identified, the district will partner with the school site to ensure evidenced-based resources and practices to address resource inequities are included in the CSI Plan, which support student achievement, decreasing suspension rates and improving attendance rates. The district will also review the results of SVA's Site Strategic Planning meeting along with assessment and attendance data to determine if there is a lack of resources or if additional resources are needed to support students to improve Dashboard outcomes.

The district will not use CSI dollars to fund this process. CSI dollars will only be used to support the additional evidence-based strategies and interventions.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The site administrator will meet with the Cabinet on a regular basis to review data on student achievement (grades, assessments, Exact Path progress, benchmark assessments, etc.) and chronic absenteeism. During monthly meetings with District Administration the site administrator will review the most recent attendance and achievement data looking for trends, areas of success and challenges and discuss the next steps the staff will take to modify instruction, create intervention or abandon strategies as needed. Staff, educational partners, site and district administration will study the data, using systems like, but not limited to, Infinite Campus, Exact Path, teacher created assessments and curricular-based assessments, and create a plan to adjust any interventions or programs used at the site. The site team will collaborate with grade span teachers (TK-2, 3-5, 6-8 & 9-12) to study data across different disciplines and recommend resources to address the plan and make any changes or update their strategies to meet the needs of the students. This process and data will be shared at regularly scheduled staff meetings, School Site Council meetings and district level administrative meetings. The District will ensure that Silver Valley Academy's supporting data and evidenced-based practices meet the requirements of the grant and district policies by meeting with the site administrator, studying their data, processes and plan and then advising the team.

The site Principal and District Administrators will work collaboratively to monitor and evaluate the effectiveness of the selected, evidence based interventions for improving student outcomes.

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Silver Valley Unified School District understands the importance and value of meaningful educational partner input in developing the District's LCAP. In an effort to engage our educational partners at a high level, SVUSD has implemented a variety of meetings and activities to involve our educational partners in the LCAP process.

District Strategic Planning/LCAP Team
During the 2022-23 school year, SVUSD continued to engage in the strategic planning process. These meetings provided an opportunity for certificated and classified staff, certificated union leaders, classified union leaders, school site principals and central office administrators, Board Members, parent representatives of Low Income, Foster Youth and English Language Learners and community members to collaborate in the development, monitoring and celebration of district efforts to improve student outcomes, both academic and social/emotional. These meetings provide an overview of accomplishments, including student achievement data, survey results, student presentations, program presentations and significant opportunities for our educational partners to discuss and recommend actions to strengthen or revise the district plan. This process becomes ingrained in the district culture and will continue as part of the development, monitoring and revision of the district's LCAP. This year, SVUSD held two LCAP meetings: one on October 12, 2022 and the second on May 16, 2023 . During these meetings the district shared its efforts to support students as we continued to experience the learning loss from the COVID-19 pandemic, instruction that included social emotional resources and support for students and families (Goal 3), career technical education (Goal 1, Action 5) and Math and ELA instructional strategies and intervention (Goal 1 Action 1 & 3) . The District also shared its efforts to gain community feedback, sought ways to improve communication and garnered feedback from its educational partners. During these meetings the planning team reviews and gives input to be considered for the LCAP prior to submission to the hearings at the Board of Trustees meetings each June.

Collaboration with SELPA
SVUSD collaborated throughout the school year with Desert/Mountain SELPA (8/26/22, 9/23/22, 10/21/22, 12/16/22, 1/27/23, 3/24/23, 4/21/23 and 5/19/23). During these meetings the following topics were discussed: Preparation for CAASPP- things we need to know
Defending against and reducing legislation related to COVID and learning loss
Alternative Dispute Resolution Training and Learning Recovery options for districts
Building Family Connections
Mental health supports for students
Defensible IEPs and building collaboration with parents
Language/ Dyslexia and possible upcoming legislative changes
Legal updates for School Districts.
Alternative Pathway Diploma for mod/severe students who are SDC and take the CAA
A representative from the Desert/Mountain SELPA was also invited to our District Strategic Planning meetings, 10/12/22 & 5/16/23, to participate in our meetings and help inform our LCAP by giving feedback and input to our plan. School district personnel also collaborated

with the Desert/Mountain SELPA on our Mental Health Student Services Act (MHSSA) grant that will provide additional mental health resources for our school district by providing three additional counselors to work at school sites throughout the district. MHSSA scheduled grant meetings This year were held on:

August 30, 2022
October 12, 2022
December 2, 2022
December 14, 2022
February 15, 2023
May 19, 2023

Additionally, meetings and calls on a more frequent basis have occurred as the year progressed and we figured out additional processes needed to be in place to help the students access services more effectively and to communicate back to school staff who referred the student.

Site Strategic Planning 2022-23
Throughout the 2022-23 school year, Silver Valley USD continued the strategic planning process at all its school sites. These meetings were composed of teachers, parents, community members and students. During these meetings the teams would discuss each site's areas of focus for the upcoming year. That information is compiled and used at the district level to inform our LCAP and Strategic Plan. Also, during these meetings, the District shared the four goals of its LCAP, results it has achieved through new and existing initiatives and the role the site's strategic planning teams play in those decisions.

Site Strategic Planning meetings were held on the following dates:

TVIS 10/12/22
FIMS 10/13/22
LES   12/7/22
YES   2/27/23
NES   3/23/23
AEC   5/3/23
SVHS 5/8/23

Surveys 2022-23
SVUSD developed surveys for staff, community members and students (Elementary, Middle & High School). These surveys were developed to get staff, student and community feedback about learning, teaching and student social emotional well-being in order to help inform

decisions about professional development, instructional practices and supporting the needs of all students. Parent/Educational Partner surveys were sent out via email and parents also received a phone call on February 28, 2023. During our elementary school parent/teacher conferences, teachers and site administrators asked parents to fill out the survey and provided them time during conferences to complete the survey. The student and school site staff surveys were sent out on March 6, 2023. Site administrators gave staff members time during staff meeting time to complete the surveys. Site administrators also worked with teachers to ensure they took their students to the computer lab to fill out their respective surveys. All surveys closed as of April 14, 2023.

Survey Results.
Parent Responses: 576
School Site Staff Responses: 166
Elementary/Middle School Student Responses: 687
High School Student Responses: 257
Total Survey Responses: 1,686

Communication with Educational Partners
Following the District Strategic Planning/LCAP meeting, SVUSD publishes a newsletter highlighting the day's activities and information shared. These are posted at every school site, social media and district website for the public to view.

District Advisory Council (DAC)/District English Language Advisory Council (DELAC)
SUVSD holds DAC/DELAC meetings regularly throughout the school year. At these meetings the Council reviews and discusses the District's LCAP and its purpose. Members represent the following student populations: English Learners, Low Income, Special Education and Foster Youth. The DAC/DELAC members are encouraged to ask questions and provide input. At the last meeting of the school year the DAC/DELAC reviews the District LCAP and approves it before it goes to the Board of Trustees in June. Meetings for the 22-23 school year were held on the following dates:

September 13, 2022
November 14, 2022
March 6, 2023
May 22, 2023

SVUSD notified its educational partners of their opportunity to submit comments regarding specific actions and expenditures in their proposed LCAP prior to the May 22, 2023 DAC/DELAC meeting, and prior to the June 13 Public Hearing and June 20, 2023 LCAP approval Board meetings. The Superintendent responded in writing to all questions received and have been posted under the LCAP portion of the District website.

A summary of the feedback provided by specific educational partners.

Through School Site Council, District Advisory Council/District English Learner Advisory Council, Site Strategic Planning and District Strategic Planning meetings which included students, parents, teachers site principals and district administrators and through several surveys to families and staff members published throughout the school year, SVUSD was able to gain feedback and input on the programs, services, and supports that students and staff would need. Through these meetings and surveys we were able to identify the following trends of focus:

Parents
Student mental health supports
Math, Reading, ELA supports
Intervention and Enrichment
Communication

Teachers
SEL training for staff
Student mental health wellness & support
Intervention in Math & ELA

Classified Staff
SEL training for staff
Training for classroom aides to support classroom instruction
Student attendance

Students
Social emotional supports
Positive Behavior Interventions and Supports
Academics, intervention and enrichment

- -Social emotional supports for students, their families and staff members
- -Intervention and enrichment at the school sites
- -Additional instructional aids at targeted school sites and grade levels for academic support
- -After school intervention and enrichment programs
- -Professional development for all staff members (Certificated, Classified, Administration)

Our educational partner feedback continues to emphasize those goals into the 2023-24 school year.

The goals and actions that were highly influenced by our educational partner feedback included that need for professional development for school site staff (teachers, principals, administrators) in Math, Language Arts, Reading, classroom and pull out intervention, social emotional learning, behavior support and supporting students completion of A-G requirements and college and career readiness after graduation.

Based on our educational partner feedback the goals and actions below are a priority and as such, we will continue to implement the following Goals and Actions:

Goal 1: All students will achieve proficiency or better in ELA and Mathematics while receiving appropriate academic support and a well balanced course of study, including Career Technical Education.

Action 4: SVUSD will provide a Response to Intervention program at every school site. Reading and Math Interventions will improve student achievement for low income, foster youth and English learners. SVUSD will continue to provide reading and math intervention teachers at targeted sites to meet the needs of our unduplicated pupils.

Action 6: SVUSD will provide Career Technical Education (CTE) courses to Silver Valley High School and the Alternative Ed Center high school students to help prepare them for future careers in the auto industry, medical industry or graphic design.

Action 7: SVUSD will lower class sizes for Transitional Kindergarten and Kindergarten classes at Yermo Elementary School, Newberry Springs Elementary and Lewis Elementary School (High EL, LI Demographics). More individualized teacher instruction will improve student achievement for low income, foster youth and English learners.

Action 9: SVUSD will provide intervention/enrichment opportunities for EL, Foster Youth and LI students before and/or after school at all sites. These intervention/enrichment opportunities will increase student achievement for low income, foster youth and English learners.

Action 10: SVUSD will provide transportation services for students in low income households in Yermo, Newberry Springs, Ludlow and Daggett, Barstow and Fort Irwin communities to improve student attendance which will have a positive impact on student achievement.

Goal 3: Increase staff and family's ability to support student academic, social/emotional and physical needs.

Action 1: SVUSD will implement Positive Behavior Interventions and Supports (PBIS) at all sites to improve school climate and increase student engagement.

Action 3: SVUSD will provide counseling services district-wide to promote student wellness and social-emotional learning for our most at-risk students, including low income, foster youth and English learners.

Action 5: SVUSD will invest in Social Emotional Learning at all sites to promote student wellness and engagement.

Goal 4: Build individual leadership skills of teachers, administrators and parents for fostering positive relationships, effective communication, and creating a culture of recognition and excellence.

Action 1: SVUSD will provide leadership opportunities for Teacher, Classified and Management staff to enhance district stability and improve student achievement.

Action 3: SVUSD will provide beginning teachers with a fully paid induction program to support them and mentor them.

Those goals and actions not listed here will continue in an effort to support the above mentioned actions in the District LCAP.

Goals and Actions

Goal

Goal #	Description
1	All students will achieve proficiency or better in ELA and Mathematics while receiving appropriate academic supports and a well balanced course of study, including Career Technical Education.

An explanation of why the LEA has developed this goal.

Analysis of current student achievement data indicates that on average the annual rate of proficiency is 40% for ELA and 30% for Mathematics District wide. There is a need to improve student achievement. Based on the 2019 Dashboard, our English Learners progress rated at very low. There is a need to improve student achievement in this important student-group. The actions listed below will provide the professional development, curriculum and progress monitoring necessary to increase achievement for all student groups, including our English Learners.

Career/ Technical Education continues to be a top priority for Silver Valley USD. Currently, SVUSD only offers one CTE Pathway, which is Auto-Shop at Silver Valley High School. There is a need to expand opportunities in Career Technical Education for our students.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Student Achievement	SVUSD will provide high quality professional development for classroom teachers, principals, administrators, and other school and community based personnel to improve student achievement.	$257,960.00	No

Action #	Title	Description	Total Funds	Contributing
1.2	Summer School	SVUSD will provide a high quality, summer school program to address credit recovery, learning loss, and extended school year for all students, including students with special needs.	$100,000.00	No
1.3	Response to Intervention	SVUSD will provide a Response to Intervention program at every school site. Reading and Math Interventions will improve student achievement for low income, foster youth and english learners.	$1,417,161.00	Yes
1.4	TK-K Extended Instructional Minutes	SVUSD will provide 58,000 TK and Kindergarten instructional minutes (22,000 more than required). This expanded learning time will improve student achievement for low income, foster youth and english learners.	$415,000.00	Yes
1.5	Career Technical Education	SVUSD will provide Career Technical Education (CTE) courses to Silver Valley High School and the Alternative Ed Center high school students to help prepare them for future careers in the auto industry, medical industry or graphic design.	$217,644.00	No
1.6	Class Size Reduction	SVUSD will lower class sizes for Transitional Kindergarten through 3rd Grade classes at Yermo Elementary School, Newberry Springs Elementary and Lewis Elementary School (High EL, LI Demographics). More individualized teacher instruction to implement state standards will improve student achievement for Low Income, Foster Youth and English Learners.	$350,000.00	Yes
1.7	Advancement Via Individual Determination (AVID)	SVUSD will provide an AVID Program that promotes academic achievement and increases students meeting college readiness requirements for EL, Foster Youth, and LI students.	$194,080.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.8	Before/After School Programs	SVUSD will provide intervention/enrichment opportunities for EL, Foster Youth and LI students before and/or after school at all sites. These intervention/enrichment opportunities will increase student achievement for low income, foster youth and english learners.	$135,000.00	Yes
1.9	Transportation Services	SVUSD will provide transportation services for students in low income households in Yermo, Newberry Springs, Ludlow and Daggett, Barstow and Fort Irwin communities to improve student attendance which will have a positive impact on student achievement.	$550,000.00	Yes
1.10	English Language Aquisition	SVUSD will provide high quality, professional development and curriculum for teachers and staff to improve English language acquisition for our our English Learners.	$25,000.00	Yes

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

For the 2022-23 school year, SVUSD had a few differences. In an effort to continue to address student learning loss due to the pandemic, SVUSD had extra intervention teachers (3) at our highest need schools (Action 3). The school sites used these intervention teachers in the area they identified as having the greatest need. Also, SVUSD did not hire an additional TK teacher (Action 6). The district chose to maintain a higher class-size average, still under 24, in lieu of hiring another teacher. Also, SVUSD did not send as many teachers to the summer AVID conference due to the lower number of teachers needing training through the summer institute (Action 7). SVUSD was able to add the second course for it's Medical Pathway (Action 5) that will allow students to gain certification and work in doctors' office after completing the pathway.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were a few material differences between budgeted expenditures and estimated actual expenditures for the 22-23 school year: Goal 1, Action 3: Response to Intervention-- 3 additional intervention teachers at our school sites increased the total expenditure for this action. Goal 1, Action 4: TK-K Extended Instructional Minutes--Higher cost of teachers' salaries and an increase in the cost of teacher benefits for the school year impacted our expenses. Goal 1 Action 6: Class-Size Reduction--SVUSD did not hire an additional TK teacher and elected to

have a higher class-size average, yet still under the state requirement of 24:1.. Goal 1 Action 7: Advancement Via Individual Determination-- SVUSD sent fewer teachers to the Summer Institute in need of training.

An explanation of how effective the specific actions were in making progress toward the goal.

Looking at our most up-to-date data, our current actions have shown success at meeting our goal. Our number of ELL students who scored "Well Developed" on the ELPAC was 8.1% in 21-22 (Goal 1, Action 1, Action 4, Action 5, Action 6, Action 9 & Action 10). The percentage of students making progress on the ELPAC was 37.1% in 21-22 (Goal 1, Action 1, Action 4, Action 5, Action 6, Action 9 & Action 10). We had more students taking an AP exam in 21-22: 94 with 40% receiving a 3 or higher (Goal 1, Action 1, Action 7, & Action 9). The percentage of high school students completing A-G required coursework in 21-22 was 45% (Goal 1, Action 1, Action 2 & Action 3). Supporting student success on CAASPP achievement scores was important to the district. Our latest results for 21-22 were as follows: ELA 40% Met or Exceeded Standards; Math 30% Met or Exceeded Standards. (Goal 1, Action 1, Action 2, Action 3, Action 5, Action 6, Action 8 & Action 9). Our continued focus on providing AVID training to our teachers to support our neediest students also helped us increase the number of students taking AP courses and exams at the high school (Goal 1, Action 1, Action 7, Action 8 & Action 9). In 22-23 we were able to add a second class, creating a pathway in our medical career introductory class for our high school (Goal 1, Action 5).

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on feedback from our site administrators, teachers, classified staff, students, parents/guardians and community members and looking at our most up-to-date data, SVUSD will continue the actions named above to support student academic needs. While in many areas we did see gains, we experienced a decrease in others. Our CAASPP achievement scores in Math (30% in 21-22) and ELA (40% in 21-22) increased compared to the previous year. These actions have served us well previously and we know that having students back to full-time in-person instruction, paired with the actions above will yield the results we need to progress towards meeting our goal.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	Increase the quantity and quality of technology usage to support student learning, instructional effectiveness, monitoring of student progress, and communicating with our educational partners.

An explanation of why the LEA has developed this goal.

Currently, SVUSD CAASPP results indicate student proficiency is 51% for ELA and 35% for Mathematics, district-wide. Silver Valley believes that technology plays an integral role in student achievement and in teaching and learning the 21st Century Learning Skills that our students will need to be successful in their future. Making sure our teachers, students and support staff have the technology tools and professional development they need to teach these skills to improve student achievement and monitor student progress is a priority for our district. The actions listed below will provide the necessary tools and support to help our students and staff be successful.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Technology Support Specialist	SVUSD will provide Technology Support Specialists to help teachers maximize the software and hardware in their classrooms to maximize	$235,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		student achievement for all students, including low income, foster youth and English learners.		
2.2	1-1 Chromebook/Laptop Initiative	SVUSD will provide a laptop or chrome book to every student to ensure they have the tools to access educational programs at school and at home. Access to educational software will improve student achievement for all students.	$85,000.00	No
2.3	Technology Survey	SVUSD will administer an annual technology survey to all SVUSD staff to measure the effectiveness of district technology and identify the technology needs of our staff.	$0.00	No

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

During the 2022-23 school year SVUSD experienced only one difference between its planned actions and actual implementation of those actions. During the 22-23 school year, SVUSD did not need to purchase additional Chromebooks (Action 2). The District had a surplus from the previous years and there was no need to remove older devices allowing the district to continue to provide 1:1 devices to its students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There was one material difference between budgeted expenditures and estimated actual expenditures and/or planned percentages of improved services and estimated actual percentages of improved services. Goal 2 Action 2--Chromebook/Laptop Initiative. SVUSD did not need to purchase additional Chromebooks or technology devices for the 22-23 School year.

An explanation of how effective the specific actions were in making progress toward the goal.

We will continue to support technology implementation in the classroom and throughout the district. Supporting instruction in the classroom will be a point of focus. Our CAASPP achievement scores in Math (30% in 21-22 and ELA (40% in 21-22) increased compared to the previous year (Action 2). These actions have served us well previously and we know that having students back to full-time in-person instruction, paired with the actions above will yield the results we need to progress towards meeting our goal (Action 1, Action 2). As a district

we need to ensure students are able to achieve at high levels, whether they are in person or in a virtual program. The technology survey that is provided to students and teachers (Action 3) allows the district to quickly adjust to the needs of these groups and provide additional resources and devices to support student achievement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on feedback from our site administrators, teachers, classified staff, students, parents/guardians and community members SVUSD will continue to implement the actions stated above to improve its implementation of technology to support student achievement, staff implementation, and communication with its educational partners.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	Increase staff and family's ability to support student academic, social/emotional and physical needs.

An explanation of why the LEA has developed this goal.

Improving school climate as well as increasing parent and student engagement are a priority for our district. The California Dashboard shows that our district has a chronic absenteeism rate of 22.1% and a suspension rate of 2.9%. Site and district PBIS/MTSS teams will use data to monitor progress in achieving our goals to meet the social emotional needs of our students, along with input from district educational partner groups (parents, students, teachers, site principals, staff). The actions listed below will provide the professional development, programs and support needed to improve school climate, increase student engagement and student achievement.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Positive Behaviors Interventions and Supports (PBIS)	SVUSD will implement Positive Behavior Interventions and Supports (PBIS) at all sites to improve school climate and increase student engagement.	$20,000.00	No
3.2	California Cadet Corps	SVUSD will provide a California Cadet Corps Program at Silver Valley High School that will teach and promote student leadership skills for our unduplicated student populations.	$50,230.00	Yes
3.3	Counseling Services	SVUSD will provide counseling services district-wide to promote student wellness and social-emotional learning for our most at-risk students, including low income, foster youth and english learners.	$609,614.00	Yes
3.4	Strategic Planning	SVUSD will implement Site Strategic Planning to ensure educational partner engagement in the development of each school's plan for student achievement.	$5,000.00	No
3.5	Social Emotional Learning	SVUSD will invest in Social Emotional Learning at all sites to promote student wellness and engagement.	$200,512.00	No

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

For the 22-23 school year, SVUSD had one area of substantive differences between planned actions and actual implementation of those actions: Goal 3 Action 3: Counseling Services. As we returned to school for the 22-23 school year, we quickly realized that many of our students were in need of counseling services. Whether it was 1-on-1 counseling or small group social skills training, the District saw an increase in the need for these services. SVUSD also hired a Director of Student Health and Wellness to oversee, support and deliver these

services as well. The district was successfully able to implement small group counseling sessions to support 96 different students. SVUSD was also able to secure additional counseling services through two different grants. These grants provided two additional counselors to see up to 32 additional students at our neediest schools, Yermo School and the Alternative Education Center.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There was one material difference between budgeted expenditures and estimated actual expenditures and/or planned percentages of improved services and estimated actual percentages of improved services. Goal 3 Action 3--Counseling Services--Due to the increase of students needing some form of counseling services, SVUSD realized an increase in those costs.

An explanation of how effective the specific actions were in making progress toward the goal.

Throughout the 22-23 school year, SVUSD's suspension rate decreased slightly as compared to the previous year (21-22: 2.9%, 22-23: 2.3%) showing that these interventions are starting to take root and help prevent student suspensions (Goal 3, Action 1, Action 3, Action 4, Action 5). Attendance rate increased slightly from 92.66% to 93.17%, however it is short of our goal of 97%, chronic absenteeism increased to 22.1% in (Goal 3, Action 1, Action 2, Action 3, Action 5).We were able to maintain our goal of an expulsion rate of less than 1% (Goal 3, Action 1, Action 3, Action 5). Our high school dropout rate was 1.1% for 21-22 and for middle school it was 0% (Goal 3, Action 1, Action 2, Action 3, Action 4, Action 5). SVUSD saw a sharp increase in the number of students taking Cadet Corp at the high school from 24 in 21-22 to 36 in 22-23, increasing the number of unduplicated students enrolled in the class.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the data and feedback from our site administrators, teachers, classified staff, students, parents/guardians and community members SVUSD will continue counseling services for schools, PBIS incentives, implementation of SEL curriculum at all sites, expanding other means of correction to include restorative practices training for school personnel and providing professional development for all staff and site administration to support student social emotional wellness.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	Build individual leadership skills of teachers, administrators and parents for fostering positive relationships, effective communication, and creating a culture of recognition and excellence.

An explanation of why the LEA has developed this goal.
SVUSD recognizes the importance of providing students with the necessary resources to be successful. These include: having appropriately placed, highly qualified and highly trained teachers, staff and site principals, access to instructional materials and school facilities in good repair (currently 100% for these three areas). This stability promotes a culture that emphasizes professional growth, accountability and leadership.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
State Metric: % of teachers appropriately assigned	State Metric: 2019-20 100% of teachers are appropriately assigned (LCFF Priority 1)	State Metric: 2020-21 97% of teachers are appropriately assigned (LCFF Priority 1)	State Metric: 2021-22 97% of teachers are appropriately assigned (LCFF Priority 1)		State Metric: 100% of teachers are appropriately assigned

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Leadership Development	SVUSD will provide leadership opportunities for Teacher, Classified and Management staff to enhance district stability and improve student achievement.	$34,500.00	No
4.2	Educational Partner Input	SVUSD will survey Parents, Students and Staff to evaluate school climate and Instructional Leadership at each site to improve student achievement.	$0.00	No
4.3	Teacher Induction	SVUSD will provide beginning teachers with a fully paid induction program to support them and mentor them.	$60,000.00	No
4.4	Teacher Recruitment	SVUSD will develop and implement a recruitment schedule to find the most qualified teachers to hire annually to enhance district stability and improve student achievement.	$15,000.00	No
4.5	* New Action May 2023* Teacher Longevity	* New Action May 2023* SVUSD will pay certificated and classified employees a longevity stipend to retain highly qualified employees within our district and within our schools with the highest percentage of English Learners, Foster Youth and Low Income students.	$105,000.00	Yes

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

During the 22-23 school year, SVUSD experienced a couple challenges when it came to District Stability. SVUSD attended fewer recruiting events (Action 4), due to the difficulty of attracting new teachers who live a long distance from the District. Attending more local recruiting events allowed us to hire the teachers we needed for the year. We held fewer district leadership training sessions at the site and district levels (Action 1). We continued to cover the cost of induction for our teachers (Action 3). The cost to a teacher to clear their credential is expensive. We cover that cost and as a result, we are able to coach those teachers in "The Silver Valley Way" to meet our standards (Action 3 & 4). During the 22-23 school year, we had fewer teachers that needed to clear their credential through the induction process (Action 4).
An area of success was our ability to garner educational partner input (Action 2). All seven school sites held their own site strategic planning meetings to get educational partner input to support their school plans for student achievement, social, emotional and behavioral needs. The District was also able to hold its Fall and Spring strategic planning meetings and administer parent, student and staff surveys to get input into shaping our LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were a few material differences between budgeted expenditures and estimated actual expenditures for the 22-23 school year: Goal 4 Action 1: Leadership Development: SVUSD provided fewer leadership training opportunities for its staff members. Goal 4 Action 3: Teacher Induction: SVUSD had fewer new teachers that needed to go through the Induction process this year, thus decreasing our costs. Goal 4 Action 4: Recruitment: SVUSD attended fewer recruiting events, due to the difficulty of attracting new teachers who live a long distance from the District.

An explanation of how effective the specific actions were in making progress toward the goal.

As a small rural district, SVUSD relies on building leadership from within and retaining those leaders for years to come. Providing teachers, classified staff, parents and site administrators with the necessary training and support they need to improve their leadership skills, we are able to retain or quickly replace staff with high quality personnel who are able to pick up where their predecessors left off (Action 1). Based on our most recent data, 100% of our teachers were appropriately assigned (Action 3 & 4). We will continue with these actions to maintain our goal of 100% appropriately assigned teachers in our classrooms. This will include continuing to provide induction and professional development for our teachers and looking at our processes to ensure they are appropriately assigned. We will continue to work with site administrators to ensure that 100% of the staff feels supported by their site administrators. Through surveys, district and site strategic planning meetings and one-on-one conversations we will work to ensure our staff members get the support they need (Action 2). We will also

make increased efforts to recognize staff for excellence and going above and beyond through letters from the Superintendent. At only 13 letters in 22-23 we are further away from our goal of 30.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Through feedback from our educational partners in surveys, strategic planning meetings and negotiations, the district chose to add a longevity stipend for its teachers in an effort to recruit and retain more experienced teachers at our schools, especially for unduplicated students (Action 5). Based on the data and feedback from our site administrators, teachers, classified staff, students, parents/guardians and community members, SVUSD will continue to build its internal capacity for leadership development of its teachers, classified staff, parents and site administrators. By doing so, SVUSD will continue to build upon and improve the "Silver Valley Way".

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
$3,107,884	$126,248

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
15.02%	0.00%	$0.00	15.02%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Needs: Silver Valley's latest CAASPP scores show that, overall, 40% of students met or exceeded standards in ELA. For Low-income, foster youth and English Learners the proficiency rate was 33%,0%,14% respectively, demonstrating a gap in outcomes for unduplicated students. Silver Valley's latest CAASPP scores show that, overall, 39% of students met or exceeded standards in Math. For low-income, foster youth and English Learners the proficiency rate was 24%,14%, 19% respectively, demonstrating a gap in outcomes for unduplicated students, a gap that has decreased since 21-22.

Goal 1 Actions: Based on the needs stated above, the district will provide students with transportation services. This is due to our district's rural location and parents' inability to transport students to and from school every day (Goal 1, Action 9). With low-income, foster youth and English Learners the proficiency rate was 24%,14%, 19% respectively, providing transportation every day to these students will allow them to be in the classroom every day to receive direct instruction and individualized supports as needed. The district will also provide TK and K classes with additional instructional minutes (Goal 1 Action 4). Based on feedback from our educational community partners, there has been an expressed need to provide full day TK & K classes. According to a study conducted in the Milton School District, in Milton Wi, research showed "Children who attend full-day Kindergarten learn more in reading and math over the kindergarten year than those in half-day programs." Based on feedback from our educational community partners, SVUSD will also provide smaller class sizes for TK and K classes

(Goal 1, Action 6). Based on research from the state of Tennessee's Project STAR program, which followed a cohort of students from K through 3rd grade, small class sizes at the younger grades showed students had a substantial improvement in reading and math. SVUSD will provide increased opportunities for pull out response to intervention and before/after school intervention programs (Goal 1, Action 3 & 8) for our unduplicated student groups at all sites to provide targeted instruction based on student need. The district will provide our unduplicated student groups with instructional strategies that promote organization, note-taking and study skills, collaboration, communication and leadership skills (Goal 1, Action 7). This will be done through our Advancement Via Individual Determination (AVID) program at all schools.

Continuance in 23-24 LCAP:

Goal 1 Actions: Supplemental funds have supported similar actions in previous plans. In ELA and Math, our unduplicated students showed growth in various grade levels across the district. The District experienced some growth in ELA overall (40% in 21-22 from 39% in 20-21), however our EL students showed some good growth in both ELA (14% in 21-22, 8% in 20-21) and Math (19% in 21-22, 15% in 20-21). Our LI students were at 33% Met or Exceeded in ELA which is still far below our goal of 60% Met or Exceeded on the CAASPP .In Math there was an increase of 6% (24% in 21-22, 18% in 20-21) showing that the actions identified in the LCAP are working.. The modified actions will continue and in order to improve outcomes for our English Learners, low-income, and foster youth students at all schools, the district will provide teachers with professional development (PD) in ELA/Writing and Math that will focus on using intervention strategies within the regular classroom and during before/after school intervention programs (Goal 1, Action 3 & 8).This PD will improve teachers' intentional focus on intervention strategies during the regular class. Increasing the rigor for teachers implementing these strategies through a "lesson study" model with the coach providing timely and effective feedback will also support student academic achievement. These high leverage actions will, in turn, support the other goals and actions listed above (Action 3, 4, 6, 8 & 9). The strategies that teachers are learning and utilizing can be used across grade levels and subject areas, especially ELA and writing.

Outcomes: For the 21-22 school year, we did experience some noticeable growth in our subgroup populations and as a result we believe that these actions will provide the necessary support to meet its goals. During the 2021-22 school year, students were still coping with the effects of the pandemic and many students and their families were still fighting the COVID-19 virus. The District's last reported chronic absenteeism rate from 2018-19 was 9.4%. That number increased to 22.1% during the 21-22 school year.   The increase of chronic absenteeism rates across the district will continue to need to be addressed through the actions in the LCAP. The District's absenteeism rate saw a dramatic increase from the previous year due to illness and still having to quarantine due to exposure. SVUSD also experienced some growth in it's CAASPP scores for the 212-22 school year. With an overall increase in ELA to 40% and 24% in Math, the District expects those numbers to increase to 45% in ELA and 29% in Math.

Goal 2 Action and Continuance: With a greater emphasis on students having the necessary technology skills to be successful in school, college and the workforce, the district will provide a Technology Support Specialist (TSS)(Goal 2, Action 1) to help teachers maximize the use of technology in their classrooms and enhance student learning and achievement. The International Society for Technology in Education (ISTE) standards are used as a guide to integrate technology in the classroom. The TSS is responsible for assisting in assessing district

systems, learning and training. The District uses many technology tools as supplemental instructional materials and core instructional materials to support student achievement (Goal 1, Action 1 & 4). Also, to move across the SAMR Model matrix, moving from Substitution to Redefinition. The TSS assists in leading that integration. Supplemental funds have supported similar actions in previous plans.   The Technology Support Specialist ensures students have the necessary technology skills to be successful in school and supports teachers in maximizing the use of technology in their classrooms to enhance student learning. Technology integration, in conjunction with a well-designed system of teaching will improve outcomes for our English Learners, low income and foster youth students. The 21-22 ELPAC data shows that only 45.2% of our EL students made growth with our goal being 55%. The CAASPP data for our low income, foster youth and EL students in ELA was 33%, 0% and 14% in ELA, respectively and 24%, 14% and 19% in Math, respectively.

Outcomes: The district expects the actions from Goal 2 above to result in increased student achievement for students making progress on the ELPAC (Goal 1, Action 10) and for all unduplicated student populations to increase their achievement on ELA and Math CAASPP proficiency scores (Goal 1, Action 1) . The SAMR model provides the necessary framework for the district to support the integration of technology into the classroom to improve student achievement.

Goal 3 Actions and Continuance: Our Cadet Corps (Goal 3, Action 2) class focuses on teaching leadership and responsibility which promotes good behavior and attendance and our counselors (Goal 3, Action 3) work with students which promotes student attendance (ELLs: 21.8% Foster Youth: 37.5% Low Income: 28.4% Chronically absent) and good behavior (ELLs: 2% Low Income: 3.6% suspension rate); expulsion rate less than 1%). The goal for the district is to maintain a suspension rate of 2.5% or lower. Supplemental funds have supported similar actions in previous plans. The increase in chronic absenteeism and gap between student groups for suspensions creates a need to continue these actions. The district will provide our counselors with PD including, but not limited to, social emotional learning, anti-bullying strategies, crisis intervention, self care and MTSS processes to improve their skills in meeting the social emotional needs of our students. Increased enrollment in the Cadet Corps class will also be a goal of the district. Also Silver Valley will partner with the Desert/Mountain SELPA in a grant program that will provide school sites with the neediest students additional support. Additional counselors will be assigned to the district to address the behavioral and social emotional needs of students through the use of data provided by sites administering a universal screener.

Outcomes: The district expects the actions from Goal 3 stated above to result in a decrease suspension and expulsion rates (ELLs: 2% Low Income: 3.6% suspension rate) and an increase in attendance rates (ELLs: 21.8% Foster Youth: 37.5% Low Income: 28.4%) for our low-income, foster youth, and English Learners.

Goal 4 Actions and continuance:

SVUSD added a new action to Goal 4: Teacher Longevity. In an effort to recruit and retain highly qualified staff, SVUSD will increase/offer its teachers a stipend for their years of service starting with Year 10:

At years 10 - 14: $250 added to Base Salary Schedule each year

At years 15 - 17: $500 added to Base Salary Schedule each year

At years 18 - 20: $1000 added to Base Salary Schedule each year

At years 21- 23: $1500 added to Base Salary Schedule each year

At years 24 and beyond - $2000 added to Base Salary Schedule each year

SVUSD has a high UPP and research shows that these at-promise students benefit from having teachers that have been identified as "Highly Qualified" with differing years of experience as compared to less experienced teachers who are not identified as "Highly Qualified". Research shows that students whose teachers have more years experience have greater gains in Math and Reading testing scores. More experienced teachers also means greater expertise due to having more educational training and professional development in Math and ELA/Reading. Based on findings from Hanover Research, new generational teachers need to be connected to more experienced teachers through the induction program to support their need to get on board. Providing mentors and opportunities for mixed generational teachers to collaborate will allow for each generation to support and learn from each other (Overcoming obstacles of the profession and building resilience and grit & integrating more technology into the classroom learning environment). Currently SVUSD has a teacher turnover rate that ranges from 25% to 30%, depending on the year. Adding a longevity stipend will help decrease the number of teachers leaving the district.

Outcomes: The district expects this goal to impact and improve student achievement scores on CAASPP Math (Low-income, foster youth and English Learners the proficiency rate was 24%,14%, 19% respectively) & ELA (Low-income, foster youth and English Learners the proficiency rate was 33%,0%,14% respectively) and Summative ELPAC scores (8.1% Level 4) for our Low Income, Foster Youth and English Learner subgroups.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Need: SVUSD English Learner population is 4.5% of our student population (approximately 91 students). During the 2021-22 ELPAC administration, our EL students scored accordingly: 11.43% Well Developed; 31.43% Moderately Developed; 42.86% Somewhat Developed; 14.29% Beginning. Also, on the ELA CAASPP, only 14% Met or Exceeded Standards and on the Math CAASPP only 19% Met or Exceeded

Standards. There is also a need to increase the number of EL students bring reclassified from EL to RFEP. In 20-21 SVUSD had 3 students reclassified. That number needs to increase to at least 15.

Goal 1 Action 10: The district will increase the number of professional development opportunities for teachers that is more focused to address the language acquisition needs for our English Learners. The professional development will focus on research-based strategies to support English Learners in all content areas along with supplemental supports. The supplemental materials provided will be used in EL classes as additional resources for student achievement on the ELPAC.

Outcomes: The district will work with its professional development providers to better support teachers and expects the actions from the above stated goal to result in an increase in the number of students making progress towards English language proficiency, as measured by the ELPAC.

The limited action described here, coupled with the LEA-wide and school wide actions described above, allow the district to meet or exceed the percentage to increase or improve services of 15.02% quantitatively.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The Silver Valley Unified School District received additional concentration grant funding to provide additional direct service support to students within the district. During the 2022-23 LCAP engagement process, educational partners expressed a need for additional literacy support at our K-8 school sites with the highest unduplicated student population (Socio-economic Disadvantaged, English Learners, and Foster Youth). Silver Valley USD utilized these additional funds to hire additional reading intervention teachers (Goal 1 Action 3) . These reading intervention teachers allow for more personalized literacy development support for our unduplicated students at each of these schools, towards supporting accelerated learning and improved outcomes.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	17.4: 1	14.8: 1

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of certificated staff providing direct services to students	15.8: 1	13.7: 1

2023-24 Total Expenditures Table

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

  - Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary
Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the "Red" or "Orange" performance category or any local indicator where the LEA received a "Not Met" or "Not Met for Two or More Years" rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the "all student*"* performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: "A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP."

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

Prompt 2: "A summary of the feedback provided by specific educational partners."

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: "A description of the aspects of the LCAP that were influenced by specific input from educational partners."

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, "aspects" of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)
Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal
Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal
Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals
In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA's eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal**: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.

- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.

- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.

- **Desired Outcome for 2023**–**24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2021–22**.	Enter information in this box when completing the LCAP for **2022–23**. Leave blank until then.	Enter information in this box when completing the LCAP for **2023–24**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25**. Leave blank until then.	Enter information in this box when completing the LCAP for **2021–22** or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

> **Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

> **Actions for Foster Youth**: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 *CCR* Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and

- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

> After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

> In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

> These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 *CCR* Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)

- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action's number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.

- If "Yes" is entered into the Contributing column, then complete the following columns:

  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    o **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

    o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

    For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 *CCR* Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)

    o   This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services

    o   This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)

    o   This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- 6. Estimated Actual LCFF Supplemental and Concentration Grants

    o   This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)

    o   This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions

  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)

  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

- 5. Total Planned Percentage of Improved Services (%)

  o This amount is the total of the Planned Percentage of Improved Services column

- 8. Total Estimated Actual Percentage of Improved Services (%)

  o This amount is the total of the Estimated Actual Percentage of Improved Services column

- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)

  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)

  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
